

COVID-19 Screening Aid

Websdepot's COVID-19 Screening Aid web application is built to be an essential tool to help businesses and organizations stay organized, efficient and safer through the pandemic.

Save time with our easy-to-use and effective screening tool for the workplace.

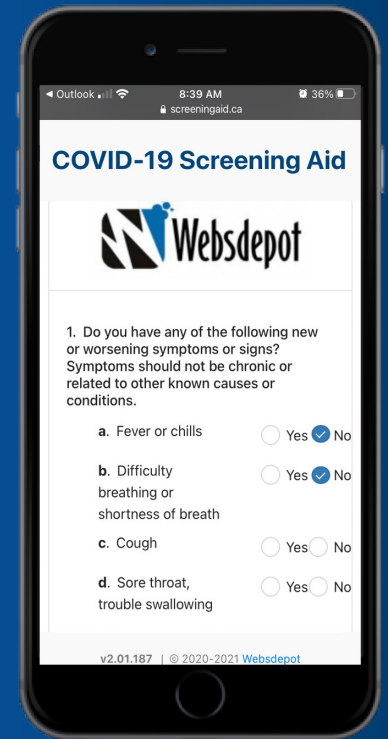

Main Features:

- **No training required.**
- **Schedule when the screening questions are sent.**
- **Send screening via text and / or email to personnel.**
- **Easily respond to the questions on desktop & mobile devices.**
- **Nothing to download, all online.**
- **Track response status effectively.**
- **Admins can view data securely.**
- **View who hasn't responded or is not cleared to enter.**
- **Filter responses across different criteria (department, date, etc).**
- **Clear visual menus. Easy-to-use.**
- **Custom questions & settings.**

How It Works:

Works on any device!

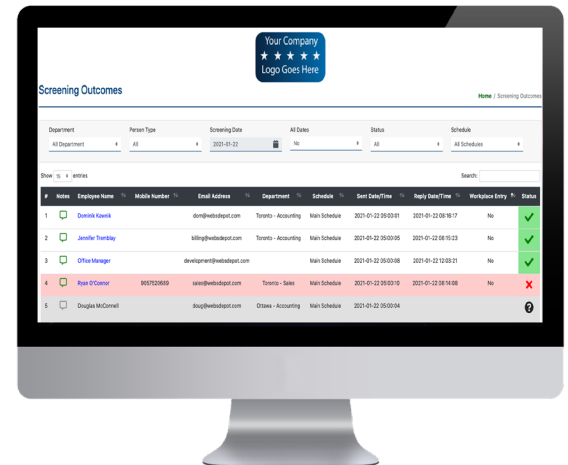

- Set up users and a schedule for when the questions are sent out to employees.
- Easily respond to the screening questions on desktop and mobile devices from anywhere.
- Get results instantly, track all response status & view who hasn't responded or is cleared / not cleared to enter the workplace.
- Ensure workplace safety and save critical time with this useful web application.

Let's work together to stop the spread.

Contact us today and we'll get you set up on the Screening Aid in minutes.

Save time. Stay Safe.
